Container handling	Container Terminal Dortmund
Port administration	Dortmunder Hafen AG

Tasks of Dortmunder Hafen AG are the management of the premises in the port area as well as building and maintaining basins and water areas.

The Dortmunder Eisenbahn provides rail transports in the port area as well as on a regional, national and inter-national level. In addition, the Dortmunder Eisenbahn is responsible for the rail infrastructure in the port area.

The Dortmund-Ems Canal as well as rail and roadways guarantee ideal domestic and foreign container traffic for the Container Terminal Dortmund.

Dortmunder Eisenbahn and Container Terminal Dortmund belong to the group of the Dortmunder Hafen AG.

Furthermore, forwarding agencies located in the port area and other logistic service companies take care of the equipment necessary for handling the goods, like cranes, warehouses, petroleum tanks and storage areas.
